PROFILE

I'm a QA Engineer with approximately 1 year's experience in testing. In addition, I have rich expertise in translation, and a degree in Linguistics and Tourism Management. If you're looking for an attentive to detail and a hardworking specialist, please feel free to reach out to me.

SKILLS

- Expertise in manual testing of web, mobile, Salesforce based apps using different types of testing (functional, smoke, critical path, extended, regression, cross-browser, cross-platform, UI/UX, localization, exploratory, API testing).
- Review, analysis and clarification of requirements with BA, PM, Developers.
- Creating and maintaining up to date test documentation (checklists, test scenarios).
- Bugs reporting and tracking.
- Understanding of SDLC, client-server architecture, and deep knowledge in software testing theory.
- Ability to write simple SQL queries.
- Foreign languages - English (B2), Turkish (A2), Spanish (A1).
